

The Twelve – FAQs

What level are the workshops at?

This varies between pieces, but the series falls across both the Progressive and Advanced Levels. If you want to know about where a specific work sits, please contact our Training Manager.

Do I have to apply for the whole series?

Only if you want to! Otherwise, just apply for any individual day/s you want to – it's entirely flexible.

Do I have to submit video footage to apply?

As these are just one-day events, we don't ask applicants to submit video footage, just a form and CV.

Do I need to have my own choir?

As the series sits across Progressive and Advanced levels, we would anticipate that you have significant experience of leading a choir, though if you are not currently working with a choir that wouldn't exclude you from applying.

Do I need to have any qualifications before applying for the day?

No, though given the levels of the workshops we would anticipate applicants having plenty of experience in singing in choirs before beginning their conducting training.

Do I have to have taken part in any other *abcd* training to apply?

No – people can apply to enter our training structure at any level.
