# More about the Sessions

## Vocal Pedagogy and Technique

This course is designed to help singers, singing teachers, and conductors acquire and develop an understanding of vocal function (anatomical, acoustic, and artistic) and best practices, all based in vocal science.

## Choral Warm Ups

Every conductor is always looking for new warm ups to engage and grow their ensemble. Learn and experience new and exciting warm ups to help your ensemble, and be prepared to share your favourite as well!

## Lifelong Singing: Care of the Senior Voice

We all feel (or will feel) the affects of aging on our voice and/or work with singers who can use our guidance as their voices age. Gain a deeper understanding as to what happens to the voice as we age and learn techniques to help keep the voice strong for years to come.
